

ABSORBENT FLOOR RUNNER

ABSORBENT FLOOR RUNNER ABSORBS 300% OF ITS WEIGHT IN LIQUID.

Tough super absorbent non-woven fabric bonded to a poly backing can be used as a runner to protect floors, counter tops, stairs. Absorbs 300% of its weight in liquid. Oil and solvent resistant.

- Sticks to most commercial floor surfaces including concrete, VCT, linoleum, ceramic tile, quarry tile and laminate flooring.
- Easy to Use: Roll out continuous walk-off coverage for entrances and walkways with no gaps, ripples or overlaps that cause slips and trips.
- Easy to Clean: You can sweep, vacuum, mop, use your shop/wet vac or run your floor scrubber over the runner and it won't budge.
- Easy to Customize: Lets you create custom-size floor mats for transition areas and wet problem spots.
- Highly efficient absorbent top soaks in moisture, wicks and spreads it evenly so the runner dries out quickly — ideal for entrances and anywhere you need maximum absorbency for water.
- 36" x 100' roll provides enough length to create continuous walk-off runners to stop dirt and moisture at the door.
- Absorbs a wide variety of liquids including water, oil and grease; leakproof backing prevents liquid from soaking through to the floor.
